

Plan Jan 6

06 January 2026 19:53

Agenda Projects and Practical

Must :

1. Cover RL 3 projects -
2. Image processing - Kaggle
3. Recommendation Engine - RL and GNN
4. RL some real life projects - search
5. Research on State space Models
6. Diffusion Model from Scratch: <https://huggingface.co/learn/diffusion-course/unit1/3>
7. Stable Diffusion Practical : <https://huggingface.co/learn/diffusion-course/unit3/2>

Should:

TabFPN finetuning

Computer Vision - Unit 5 - Generative Models (Hugging Face)

<https://huggingface.co/learn/computer-vision-course/unit0/welcome/welcome>

Notes : Deep Learning

Date	Day	Topic
7-01-2026	Wednesday	In Car : Reinforcement Learning - Chapter -1 and Chapter -2 (Half) At Office : 1. Cover RL 3 projects 2. State space Models At Home: Diffusion Model from Scratch: https://huggingface.co/learn/diffusion-course/unit1/3
8-01-2026	Thursday	Deep Learning Notes Image processing - Kaggle
	Friday	Deep Learning Notes Send for Printing Image processing - Kaggle If time left: Stable Diffusion Practical : https://huggingface.co/learn/diffusion-course/unit3/2
9-01-2026	Saturday	Any Spill Overs
10-01-2026	Sunday	Stable Diffusion Practical : https://huggingface.co/learn/diffusion-course/unit3/2 Research on worked out examples and code for : 1. Recommendation Engine - RL and GNN
