

Elective Sem 3

19 February 2026 12:56

Large Language Models for Generative AI
Unsupervised Deep Learning
Graph Neural Networks

Plan 22 Feb

22 February 2026 19:12

Portions to cover : RL ppts 3
ML Sys optimizations - slides
DNN numerical
CV numerical
CV Hough Transform

Date	Day	Subject	Chapter /Topic
23 Feb	Monday	DNN	• <u>Morning Travel</u>: Read Dropout and SoftMax Regression • <u>At office</u>: • SoftMax Regression, • FFNN1 -All numerical and algorithms • Give for ML Sys Optim notes printing • <u>At home</u>: • Remaining Numerical of FFFN1 • CV Notes • RL slide 1
24 Feb	Tuesday	DNN	<u>Morning Travel</u>: CV Notes <u>At office</u>: NN_BP numerical and Algos <u>At Home</u> : • remaining numerical(if any) • DNN Quiz • RL slide 1 (MAB) and numerical
25 Feb	Wednesday	DNN	<u>Morning Travel</u>: ML Sys Optim Notes (Printouts) <u>At office</u>: DNN_M3_Linear NN Regression numerical and Algos <u>At home</u>: • RL slide 1 (MAP) • RL slide 2 (MDP) and numerical
26 Feb	Thursday	CV	• CV Numerical : Filtering , equalization, Convolution , correlation etc. • ML system opt- 1st session • RL slide MDP and numerical and code
27 Feb	Friday	MLSysOpt and RL	• ML Sys Opt - 1st session and 2nd session half and read and take notes (if required) extra resources.
